

DAY TRIP TO CORDOBA

- **Duration: half day**
CORDOVA MOSQUE-CATHEDRAL

This monument of Cordova, unique in the world, tells the history of one fascinating period. It was started in 780, where the Visigoth church of San Vicente was first placed. It was extended several times until 987, when it reached the size it has nowadays.

Alter the Reconquest, when Christians had the power again in Cordova, they built a Gothic Cathedral on it. The Mosque is a master piece of the Muslim art.

CORDOVA SYNAGOGUE

The Synagogue of Cordova is placed in the core of the city. It was built in 1315 (5075 in the Jewish Calendar) in mudejar style.

In the pray room is placed the Tabernacle, preserving the Torá.

THE JEWISH QUARTER

Small narrow streets, half-opened doors which lead to patios full of flowers, worked bars, typical establishments... it's impossible to avoid the charm of the Jewish quarter.

Jews came to Cordova before Muslims and immediately occupied important places in commerce and science teaching.
